NOTIFICATION.

No. 1.—In connexion with the selection of Indian candidates for admission to the Royal Military College, Sandhurst, with a view to their qualifying for King's Commissions in the Indian Army, it is proposed to hold an entrance examination in Simla on the 24th April 1922, for the term commencing in September 1922. The following information is published for the use of intending candidates:—

(1) Candidates must be between the ages of 17½ and 19 on the 1st July 1922, but the upper age limit will be 21 on the 1st July 1922 for candidates who were serving satisfactorily in His Majesty's Forces on or before the 1st January 1920, or in the Senior Division of the Officers' Training Corps on or before the 1st March 1919. Candidates must state their age *definitely*.

(2) Candidates are required to furnish a declaration which must be signed by their parent or guardian, to the effect that it is their intention to make the Army their permanent profession.

(3) Candidates must be prepared to pass a qualifying examination the detailed syllabus of which is printed as an appendix to this notification. The general educational standard required is that prescribed for the diploma of the Chiefs' Colleges, a school-leaving certificate recognized by a Local Government, the Matriculation examination of an incorporated University or any higher examination.

(4) Candidates will, in addition, undergo a special test consisting of an oral examination conducted on similar lines to the Admiralty Test for the Royal Naval College. This examination which is designed to test the intelligence and general knowledge of candidates will be conducted by a Board of officers.

(5) A medical examination, according to the standard laid down in Appendix 18 of the Regulations for the Army Medical Service, 1908, will also be held in Simla. Candidates should attach to their applications a medical certificate from a *competent medical officer* to the effect that they come up to the standard mentioned above.

(6) The cost of a first-class railway fare from their homes and back will be granted to candidates attending the medical and qualifying examinations in Simla.

Candidates finally nominated to join the Royal Military College, Sandhurst, will also receive the cost of one first-class fare from their residence to the port of embarkation, in India, and a first-class passage by sea to England.

Applications for railway fares should be made to the Private Secretary to His Excellency the Governor of Madras.

Passages by sea for candidates selected for admission to the college will be arranged by the Embarkation Commandant, Bombay, under orders from Army Headquarters.

Selected candidates will be sent to England in charge of a British officer, who will be appointed by Army Headquarters and who will meet the candidates at Bombay. Each candidate will hand over to this officer at Bombay the sum of Rs. 300 to cover the cost of expenses incurred during the voyage to England.

(7) The fees for cadets at the Royal Military College, Sandhurst, are £75 a year, exclusive of contingent expenses and sundries, etc. The total sum required by a cadet at the college may be estimated as follows:—

	£
Fees for two years at £75	150
Contingent account for four terms	100
Pocket money at £3 per mensem	72
Thirty weeks' vacation at about £5-5s. a week	157
Extra pocket money during vacation at £3-3s. a week	95
Sundries, say	136
Total ..	710

(8) The sum for sundries includes additional expenses during the vacations, such as travelling and entertainments. The expenses of cadets will as far as possible be kept within the above limits, but the parents or guardians of cadets must be prepared to pay any excess over these amounts.

(9) The above estimate does not provide for European kit on arrival in England other than the amount required for college uniform; for the purchase of European kit an additional sum of from £100 to £200 should be provided. Neither does this estimate include anything for the cost of outfit on being commissioned from the college.

(10) The Local Government will recover from parents or guardians the sum of £350 at the beginning of each year of the Sandhurst course and pay it into the local Treasury with full details in each case and with instructions that the credits should be passed to the Secretary of State for India through the outward London Account Current.

(11) An allowance of 4s. a day, in aid of the expenses of messing, washing, and other contingencies, will be admitted as a charge against the public for each cadet so long as he is in residence at the Royal Military College. All other necessary expenses which cannot be covered by this allowance shall be chargeable to the parent or guardian of a cadet.

(12) If a cadet is absent a whole term in consequence of rustication, a payment of £10 shall be required in lieu of the half-year's contribution for the privilege of his name being kept on the rolls of the establishment, and for a vacancy being kept open at the commencement of the next term.

(13) If a cadet is rusticated or removed during a term, his daily allowance shall cease from the date of such rustication or removal, and the contribution made for the half year shall be forfeited, unless otherwise specially decided by the Army Council.

(14) If a cadet is absent from sickness during a portion of the term, his allowance shall continue to be issued and credited to his account. In exceptional cases a refund of the contribution for the period of absence may be authorized by the Commandant, and in such cases the cadet's allowance shall cease for the period of the refund.

(15) Indians selected for cadetships will be subject to such rules and regulations as are, or may be, from time to time, established for the maintenance of good order and discipline at the college.

They will, while at the Royal Military College, belong to the ordinary College Mess and no special messing arrangements can be made on their behalf.

Indian cadets are required to appear at all times in the uniform of the college except when on leave or when otherwise exempted by the Commandant, but they will be allowed to wear their national head dress should they so desire.

They will not be allowed to take servants or personal attendants of any kind to the college.

(16) One of the rules for admission to the Royal Military College is that a cadet should be unmarried. This rule will be waived in the case of Indian candidates, but in no circumstances will a cadet be allowed to take his wife or family to England.

(17) The normal length of the course of instruction will be about two years divided into four terms. The college terms will be—

Spring term.—From about beginning of February to about middle of July.

Autumn term.—From about beginning of September to about middle of December.

The intermediate periods will constitute the vacations.

(18) Cadets from India will have to qualify in the ordinary passing out examination and will, on qualifying, be eligible for King's Commissions. Before being passed as fit for a commission, they must be certified to be in good mental and bodily health and free from any physical defects likely to interfere with the performance of their military duties. Those who are successful in obtaining commissions will enter the Indian Army as Second Lieutenants.

(19) Unless a Government building is available, candidates will be provided with private accommodation usually in a hotel at Simla. Candidates will be charged for messing, but the cost of the rent of the quarters will be borne by Government. Suitable arrangements will be made for those candidates who are precluded, by caste, from eating the food provided.

Candidates may arrange for quarters in the hotel, other than those provided, but they will be liable for any additional cost incurred. Candidates will on no account be allowed to live elsewhere.

Parents or guardians must ensure that candidates are provided with sufficient funds to meet the cost of their expenses while in Simla.

(20) The Private Secretary to His Excellency the Governor of Madras, to whom applications should be made not later than March 2nd will intimate to the selected candidates the fact of their selection. No applications received after the 2nd March will be considered.

(21) Intending candidates should submit their application in the form below.—

RULES.

[In these rules the term 'Inspector' shall mean Inspectress in the case of girls' schools.]

Section 3 (i)—Attendance at school.—The full school day should, as a rule, consist of at least four hours of secular instruction, but two meetings each of not less than two hours whether on the same or on different days may be counted as one school day. In respect of any school or standard or class the District Educational Council after consultation with the Inspector may, for special reasons, direct that any course of less than four hours shall be treated as a full school day. In the case of the three lowest standards or classes instruction should not be given for more than two consecutive hours without a reasonable interval.

Minimum attendance for the year shall ordinarily be calculated in respect of at least 150 school days. The Inspector should be notified of such times as the school is closed during the year.

Section 3 (v)—Elementary education.—(*a*) Elementary education means education up to and including standard VIII.

It may also comprise classes 1 to 5 of a secondary school.

(*b*) Elementary education shall mean the imparting of instruction in a vernacular in reading and writing, arithmetic, drawing, nature study and physical training and, in the case of girls' schools, needlework.

It may also include the following additional subjects:—

Hygiene,
First-Aid,

and
Practical instruction.

NOTE.—(1) In the earlier stages kindergarten methods should be adopted.

(2) In the case of girls practical instruction should include health and household management.

(3) Training in music should be provided for in schools whenever possible.

(4) The Director or the District Educational Council concerned may prescribe courses of study in all or any of these subjects.

(5) The practical instruction given should ordinarily have reference to the chief occupations or industries of the locality and the class of pupils.

Section 3 (vii)—'Elementary school place'.—Elementary school place means suitable accommodation subject to a minimum of 9½ sq. ft. of floor space per pupil and equipment consisting of a supply of suitable pictures and other simple appliances.

Section 3 (xiii)—'School age'.—School age shall be not less than 6 and not more than 11 in the case of boys, except Muhammadan boys in whose case it shall be not less than 8 and not more than 13. In respect of girls, school age shall be not less than 5 and not more than 10. Provided that it shall be competent to the District Educational Council with the approval of Government to prescribe a different age for any particular community.

Section 12—Transfer of property.—District Educational Councils may sanction all transfers of immovable property vested in or belonging to them by sale, mortgage or exchange subject to subsequent confirmation by Government if the value of the property exceeds Rs. 500. It shall in all cases of transfer as aforesaid as well as in all cases of transfer by a lease or otherwise be one of the expressed conditions that the transferee is liable to pay to Government such assessment or ground-rent as the Collector may determine to be payable, the said assessment or ground-rent being further liable to periodical revision.

Section 26—Prescription of reports and statements to be transmitted by the District Educational Council.—The following reports and statements are prescribed for transmission to the Director of Public Instruction under this section:—

(1) Every year in May a return of names of schools refused aid or recognition or from which aid or recognition was withdrawn during the previous official year.

A separate list for each municipality and taluk board should be transmitted in July of each year.

(5) In July a report on the condition of elementary education in the district in the previous year.

(6) A list of backward classes by July of each year.

(8)

SECTION 41 (1).—FORM OF APPLICATION FOR RECOGNITION.—Vide Appendix 13 to these rules.

SECTION 41 (2).—RULES FOR RECOGNITION.

Recognition.

1. Each standard or class above the fourth shall be separately recognized. Recognition shall depend upon satisfactory evidence of the educational needs of the locality as well as of the other matters specified below.

Qualifications and number of Teachers.

2. The teachers should either be of proved ability or should hold trained teachers' certificates. In elementary schools with standards above the fifth, the headmaster should ordinarily hold a secondary trained teachers' certificate. Untrained teachers below the age of 35 should be sent for training at the earliest opportunity.

3. The District Educational Council may refuse or withdraw recognition on account of the employment in a school of any teacher whom it, after due inquiry, considers unfit to be a teacher.

4. There shall be at least one regular teacher for every 40 pupils on the rolls. While this number of pupils is to be in all cases the maximum permissible, it is very desirable that there should be a teacher for every 30 pupils.

Protection from Smallpox.

5. The presence of pupils unprotected from smallpox may be regarded as a sufficient cause for withdrawal of recognition.

Building, Furniture and Appliances.

6. The building used for the school should be suitable, should be kept clean and should admit sufficient light and air.

7. The provision of much furniture need not be insisted upon, but there should be a supply of suitable pictures and other simple appliances.

Text-Books.

8. No books (other than books for religious instruction) shall be used in the school by the teacher or pupils which have not been approved by Government. A list of approved books for elementary schools will be published from time to time.

Register.

9. The following registers shall be kept in the prescribed form and produced to the inspecting officer or to a member of the District Educational Council when required:—

(1) A register of admissions and withdrawals (Appendix 14).
(2) A register of attendance of pupils (Appendix 15).
(3) A register of attendance of masters (Appendix 16).
(4) A register of progress and conduct (Appendix 17).
(5) An inspection book.
(6) A visitors' book (Appendix 18).

The registers must be carefully kept by the headmaster and should be countersigned by every inspecting officer who visits the school. No entry should be made in the inspection register except by an inspecting officer. The entries should be in a language understood by the master. In the visitors' book district officials and other visitors to the school may be invited to make remarks. A member of the District Educational Council visiting a school, instead of noting his remarks in the visitors' book, may forward his remarks on the progress and condition of the school to the President of the Council who will place them before the Council.

Admission and Promotion.

10. No transfer certificate shall be demanded from any pupil on admission to an elementary school. The pupil shall be placed in the standard or class which the headmaster considers suitable. The inspecting officer may order the removal of any pupil from one standard or class to another if it seems desirable; any such removal should be recorded in the progress and conduct register.

School-Leaving Certificate.

11. On leaving the school, having passed through the fifth or any higher standard, a pupil shall, on application, be granted a school-leaving certificate in the authorized form, if found by the inspecting officer entitled to it under instructions to be issued by the Director. These certificates are called elementary school-leaving certificates and must be on the numbered forms issued by the Director.

Medium of Instruction.

12. Instruction must be given through the medium of the vernacular of the pupils wherever this is possible. The exceptions would be cases of Muhammadans or pupils with a vernacular different from that of the bulk of the pupils.

Course of study.

13. The course of studies should be arranged and the time-table drawn up in consultation with the inspecting officer provided that where a course of studies has been drawn up by the Director or the District Educational Council, such course of studies shall be adopted. Schemes of studies from which selections should be made will be issued from time to time. Due regard

should be paid to local circumstances especially in rural schools where school hours and vacations should be suited to agricultural conditions. The inspecting officer should record his opinion in the inspection book as to which subjects each teacher is qualified to teach and no other subjects should be attempted by him. Special care should be taken in this respect in regard to English.

SECTION 42 (1).—FOR FORMS OF APPLICATION FOR AID—vide Appendices 19, 20 and 21.

SECTION 42 (2).—RULES FOR AID.

[The term " Manager " as used in these rules includes also his accredited representative.]

Chapter I.—Teaching Grants on behalf of Elementary Schools

1. *Scale of grants*.—Teaching grants will be calculated at the following rates :—

	Rate per year. Untrained teacher.	Rate per year. Trained teacher.
	RS.	RS.
For each teacher of the lower elementary grade	48	84
For each teacher of the higher elementary grade	72	96
For each teacher of the secondary grade	96	150

The grant thus calculated will be called the assessed grant.

2. *Fixing the amount of grants*.—The inspecting officers may propose for a school a reduction not exceeding 25 per cent of its assessed grant for defects in organization, discipline, instruction and accommodation, also on account of a diminution of the number of school meetings, an undue shortening of the school day or the portion thereof devoted to secular instruction, the presence of pupils unprotected from smallpox, or insufficiency of funds. Intimation shall be given to the manager at the time of inspection or soon after, of the inspecting officer's intention to recommend a reduction of the grant together with his reasons therefor. They may, on the other hand, propose for a school an increase not exceeding 50 per cent of its assessed grant, for the attainment of a high standard of efficiency, more especially for the introduction of any methods of teaching calculated to train the children's faculties and powers of expression and observation, proper attention to physical exercises, and generally any attempt to fit the children for their position in life.

The recommendation of the inspecting officers as regards either reduction of 25 per cent of the assessed grant or an increase of 50 per cent thereof shall be limited to exceptional cases. Cases of recommendation for increase of 50 per cent of the assessed grant shall not exceed 10 per cent of the schools admitted to aid.

The assessed grants as modified by the increase or decrease proposed by the inspecting officers shall be called the assigned grant. The grants so assigned shall be subject to the orders of the District Educational Council. Assignment of grants involving decreases of over 25 per cent or increases of over 50 per cent of the assessed grant shall be transmitted by the Inspector or Inspectress for the orders of the District Educational Council who may, on the report of the inspecting officer or after enquiry, determine the amount of increase or reduction of the grant or withhold it altogether and take such other measures as the occasion may appear to require in cases where there has been falsification of registers or misrepresentation regarding the employment of teachers or the attendance of pupils or any other fraud or irregularity, or violation of any of the conditions of recognition and aid.

Increases of the assessed grant by more than 50 per cent shall be confined to special cases where it is obvious that sufficient funds from other sources are not forthcoming ; in particular such increased grants may be made to higher elementary schools and schools for girls.

In all cases the payment of grants will be subject to the funds available for the purpose with the District Educational Council. Where funds are inadequate, the grants should be reduced and distributed *pro rata*.

3. *Application for aid*.—Application for admission to aid in any official year shall be made to the District Educational Council in the prescribed form through the Sub-Assistant Inspector and the Inspector of Schools in the month of September of the previous year. The Inspector will forward the application to the District Educational Council with his recommendations so as to reach the Council not later than the 1st December following.

In special cases of schools recently opened which have trained teachers the District Educational Councils may entertain applications for admission to aid received on other than the prescribed dates.

4. *Admission to aid*.—The District Educational Council shall scrutinise the applications for aid and after considering the recommendations of the inspecting officers shall determine what schools shall be admitted to aid. In determining this they shall take into account the number, the character and the financial condition of the schools, the educational needs of the locality and the funds available.

5. *Tabulation of schools admitted to aid*.—The District Educational Council shall draw up a consolidated list in the prescribed form (Appendix 1) of all recognized elementary schools indicating those admitted to aid.

A list of schools not admitted to aid shall also be prepared at the same time, the reason for rejection being briefly indicated in each case.

Publication of lists.—A consolidated list of all recognized elementary schools indicating those admitted to aid shall be published in the prescribed form (Appendix 1) for each district, and shall be issued to the Presidents of Local Boards, Chairmen of Municipal Councils, treasury and inspecting officers and Deputy Inspectors of Vaccination.

Two copies of the list shall also be sent to the Examiner of Local Fund Accounts

6. Applications for change of management of an institution should be made to the District Educational Council.

7. *Annual inspection of schools.*—In addition to any other visit which may be paid by an inspecting officer to an aided school there shall be an annual inspection. APPENDIX 24.

INSTRUCTIONS AS TO THE SANITARY AND HYGIENIC REQUIREMENTS TO BE OBSERVED IN THE DESIGNING AND CONSTRUCTION OF SCHOOL BUILDINGS IN THE PRESIDENCY OF MADRAS.

Selection of sites.

In the selection of a site the following points should be weighed against considerations of economy, convenience, proximity to houses of parents, etc :—

(i) A site should not be selected if its natural position is in a hollow or in the neighbourhood of high trees or houses which prevent the free circulation of air and the access of sunlight to the school buildings. Shady trees are, however, of value in the *play-ground*, provided that they do not unduly reduce the space available for play and are not planted so close to the school buildings as to obstruct the entry of light into the class rooms, or in course of time, to cause damage to the structure.

(ii) Made soil should be avoided and, as far as possible, all soils which are specially retentive of moisture.

(iii) Sufficiency of space is important, and in this connexion the possibility of future extension and the necessity of giving subsequent class rooms the proper orientation should be borne in mind.

(iv) Channels and tanks in the vicinity are a disadvantage.

(v) The presence of rank vegetation, more especially prickly-pear, is objectionable.

(vi) The neighbourhood of dusty and noisy roads and of shops or factories should, as far as possible, be avoided.

2. All site plans should show the nature of the surroundings, the height of the neighbouring buildings, the north point and the direction of the prevailing wind.

Orientation of buildings.

3. This will differ for different parts of the Presidency and will depend chiefly on the best way to secure perflation of air. Subject to this the more buildings are lighted from the north the better.

Floor space.

4. When funds are available, they should be utilised in providing floor space in excess of the following minimum requirement:—

For elementary schools ... ... 9½ square feet per pupil.

Rooms which are intended to be used for practical work, such as drawing rooms, workshops, etc., should be carefully designed with a view to the nature of the work and the number of students to be accommodated.

Composition of floors.

5. It is desirable that the floors should be made of a material which will admit of their being washed with water. Stone flagging or something better must be aimed at in rooms where desks or benches can be provided. Where the pupils have to sit on the floor, stone floors need not be insisted on if objected to. At the same time it must be recognized that from the hygienic point of view they are to be preferred and the objection on the score of their coldness can be met by providing boards or mats. But where this is done, the greatest care must be taken to ensure that the mats are kept scrupulously clean.

Seating arrangements.

6. The general principles which should govern the construction of desks are set forth in Annexure (i). Where dual desks are used, the desks may be arranged most suitably as shown in diagram, Annexure (ii).

7. Forms without backs and desks are objectionable; type-designs for desks are issued by the department.

8. Pupils should be seated in rows with the main light falling from the left side; they should never face the light. The same remark applies to the teachers.

Windows.

9. Windows serve two purposes—

(a) Admission of light,
(b) Admission of air

10. They should be placed at regular distances so as to ensure uniformity of light.

11. Window sills should not be more than 4′ from the ground in rooms in which the scholars are seated at desks. When pupils sit on the floor the sills should come to within 2½′ or 3′ of the floor level. Windows for subsidiary lighting may have their sills more than 4′ from the floor.

12. The window area should not be less than one-fifth of the floor area and wherever possible the principal lighting should be from the north.

Doors.

13. Class rooms should not have to be used as passages from one part of the building to another. They should consequently not open into one another but into passages or verandahs. No class room should have more than two doors and in most cases one is preferable. The door or doors should be at the teacher's end of the room.

Height of class rooms.

14. The minimum height of the room in elementary schools, should be 10′ to the tie beam when the room has an open sloping roof and 12′ to the under side of the joists where the room has a terraced ceiling.

Ventilation.

15. Unless there are windows reaching to the top of the wall and capable of being opened ventilators are necessary near the top of the wall. The ventilators should be regularly distributed in the same way as the windows. For each pupil 48 square inches of open ventilator should be provided.

Dimensions and fittings of class rooms.

16. It is important that no school or class room should be more than 24′ in width, or otherwise the rows of pupils will be too long to be properly controlled by the teacher. The length of a room must depend on the number of classes to be held in it. In the case of a school divided into a number of class rooms, the dimensions of any room should not exceed 24′ × 25′, that is, an approximate square. If it is admitted that a square is the best area for teaching purposes, the length of a class room in a one-roomed school should approximate closely to some multiple of the width. Ample wall blackboard space should be provided especially on the wall at the teacher's end of the room which should be unbroken by doors, windows or cupboards. Cupboard recesses in other walls should be provided, also recesses with open shelving. Rails under the cornice for hanging maps, pictures and diagrams are essential. The smallest class room for 40 boys in dual desks should be 21′ wide and 23′ long. The arrangement of such a room is shown in the enclosed diagram No. C.A. 306 of 1917, Annexure (ii). To accommodate similarly desks of larger dimensions those of the room must be proportionately increased.

Roofs.

17. The roof should, as far as possible, be impervious to heat.

Sanitary arrangements.

18. Latrines should not be placed nearer than 40′ to any school building. They should be so situated that the prevailing wind will not blow from them in the direction of the school.

19. The type-designs of the sanitary department should be consulted when planning latrines.

20. For boys' schools separate urinals and latrines should be provided. Separate accommodation should in all schools be provided for the teaching staff.

21. The number of latrine seats should be on the following scale :—

	Girls.	Boys.
Under 30 children ...	2	1
„ 50 „ ...	3	2
„ 70 „ ...	4	2
„ 100 „ ...	5	3
„ 150 „ ...	6	3
„ 200 „ ...	8	4
„ 300 „ ...	12	5
„ 500 „ ...	20	8

22. There should be in addition for boys urinals at the rate of 4 per cent or if separate urinals are not provided the number of latrine seats should be correspondingly increased.

ANNEXURE (i).

1. The seat should not be so high as to prevent the child resting its feet upon the floor, or on a footboard, and if the latter, the knees should not be elevated.

2. Assuming a child to be sitting upright in his seat and the arms to be hanging freely down the edge of the desk next the body should be about an inch higher than the level of the elbows in the case of boys, and from 1¼" to 1¾" in the case of girls.

(If the desk be higher than this, there is a tendency for the boy to be twisted and for one shoulder to be raised above the other with the consequent risk of lateral curvature of the spine.)

3. A line dropped from the edge of the desk ought to strike the edge of the seat or a point an inch or two within it.

(This arrangement obliges the child to assume an upright position which is best for the eyes and the spine.)

4. No seat should be without a back, and the top of this should be one inch lower than the edge of the desk in the case of boys, and one inch higher than the edge of the desk in the case of girls. (In schools which are graded, great inequalities will be found in the size of the scholars in each room, to meet which it is desirable to provide three sizes of desks. In schools of mixed ages there should be a large number of sizes.)

5. The desk must not be flat. It should slightly incline towards the child.

6. The seat should not be flat, but saddle-shaped. Change of position will be desirable.

7. The desks must be easy of access yet compactly arranged. The angle of vision for the teachers should be not more than 45°.

Height and dimensions.

(1) The sloping part of the top should be not less than 12" in width.
(2) The inclination should be about 2" and the slope should be about 1 in 10.
(3) The flat portion of the desk with groove should be from 3" to 3½" in width.
(4) The proper height allows the forearm of the seated child to rest horizontally upon the desk without discomfort—

(a) Youngest children ... ... 20" to 25" to the middle of the slope.
(b) Intermediate children ... ... 22" to 26" „ „
(c) Oldest scholars ... ... 30" to 36" „ „
The seat should be 16½" high.

(5) The back rail should be not more than 7" for younger children and not more than 10" for the older ones.

(6) The minimum space for each child should be 20", 22" would be better.

(7) The width of the gangway should be 18" at least.

(8) The seats should be 8" wide.

THE COTTON CROP OF 1921–22—FOURTH REPORT.

(On an average of the five years ending 1919–20 the area under cotton in the Madras Presidency has represented 11·2 per cent of the total area under cotton in India.)

The total area sown with cotton in the Madras Presidency up to the end of January 1922 is estimated at 1,844,100 acres against an estimate of 2,222,300 acres at the corresponding date last year. Last year's estimate exceeded the finally recorded area of 2,150,484 acres by about 3·4 per cent. The present estimate represents a decrease of 14 per cent below this last figure. The area in an average year is estimated at 2,303,000 acres.

2. The decrease is general. It is most marked in the Northerns and Westerns areas owing to the failure of rains in August and September which is the main sowing season in those areas. The decrease in the Cocanadas tract is due to the lateness of the north-west monsoon. The decrease in the area under Cambodia cotton grown as a dry crop is responsible for the reduction in area in the Central districts and in the South.

3. A bumper yield is expected in the south if the season continues favourable. Elsewhere yields below normal are expected. The total yield of the area sown is estimated at 353,800 bales which is 5,700 bales more than last year's estimate. It is, however, too early to estimate this with any accuracy.

4. The table below gives the final information concerning the crop of 1920–21 :—

Variety. (1)	Pressed at presses plus loose cotton received at mills. (2)	Yield as estimated in February 1921. (3)	Yield as estimated in the season and crop report of 1920–21. (4)
	BALES OF 400 LB.	BALES OF 400 LB.	BALES OF 400 LB.
Tinnevelties	141,888	145,400	..
Salems	4,777	12,800	..
Cambodia	108,849	89,300	..
Total, South ..	253,614	268,400	241,400
Northerns and Westerns (excludes Kaishar)	97,888	51,700	76,200
Cocanadas	24,361	36,100	40,300
Grand total ..	375,873	356,200	357,900

To the figures in column (2) should be added an estimate of 10,000 bales for local consumption. No definite information is available regarding the carrying over. Assuming that this was about the same at the close of the two seasons, then the figures show that there was an underestimate of the Northerns and Westerns crop. Last year's estimate for other varieties was fairly accurate taking into account the fact that a fair quantity of country cotton—which should go under 'Salems'—is used for mixing with Cambodia.

5. Detailed figures by districts and varieties are given in the statement attached.

Area in hundreds of acres (i.e., 00's being omitted). Yield in hundreds of bales of 400 lb. each (i.e., 00's being omitted).

The following rules regarding the qualification and admission of proper persons to be Vakils of the High Court of Judicature at Madras are republished for general information:—

1. Every candidate for admission as Vakil of the High Court shall be required to satisfy the Court—

(1) either that he passed the examination for the degree of Bachelor of Laws of the University of Madras in or before January 1898 or that he has passed the examination for that degree since January 1899 and (unless the candidate for admission has presided as a Judge of a Civil Court in the Madras Presidency for a period of not less than three years) has also passed the examination in the Law of Practice and Procedure, Civil and Criminal, provided for by Rule 14, or that he has taken the degree of Bachelor of Laws of the University of Allahabad or the degree of Bachelor of Laws of the University of Calcutta, or the degree of Bachelor of Laws of the University of Patna or has taken such degree in Law of any other University as the High Court may by general or special order accept as equivalent to the degrees herein specified, and

(2) that after passing the examination for one of the said degrees he has either served a regular apprenticeship to an Advocate, Vakil or Attorney of the High Court under a contract in writing as provided by these rules, or actually practised as a Pleader in the Court of a District or Subordinate Judge in the Madras Presidency or in the Chief Court of Mysore or in the High Court of Travancore or in the Chief Court of Cochin or in the Chief Court of Pudukkottai or in the Court of the Judicial Commissioner of Coorg or in the Court of the Commissioner of Coorg for a period of five years immediately preceding the date of his application, or where the period for which he has actually practised as a Pleader falls short of five years, presided as a Judge of a Civil Court in the Madras Presidency for the period required to make up the deficiency, and

(3) that he is of good moral character.

2. The apprenticeship referred to in clause (2) of Rule 1 shall be for a period of one year, all of which need not necessarily be served under one master, but may be under different persons by virtue of an assignment of the contract of apprenticeship in writing, or by virtue of successive independent contracts, provided that the term of service with each Advocate, Vakil or Attorney shall not be for less than six months.

3. The person under whom the apprenticeship is served must be actually practising in the High Court as an Advocate, Vakil or Attorney of the High Court during the whole period of the service.

5. The contract in writing whereby any person shall engage to serve as an apprentice under these rules shall, within one calendar month after its execution, be filed with the Registrar together with a statement in writing by such Advocate, Vakil or Attorney that he has been himself duly admitted, and is practising, and that such contract has been duly executed by himself and by the apprentice therein mentioned. 6. In case the contract or assignment, together with the necessary statement aforesaid, be not filed within the time specified, the same may be filed with the Registrar after the expiration thereof; but in such case the service of such apprentice shall be reckoned to have commenced or been renewed from the date of the filing of such contract or assignment, unless the Court shall otherwise order.

If the High Court disapproves of any contract or assignment filed under the foregoing provisions, such disapproval shall be signified by the Registrar to the contracting parties, and thereupon the contract or assignment, as the case may be, shall be deemed inoperative for the purposes of these rules.

7. Every apprentice shall, during the whole period of his service, keep regularly a diary showing from day to day the nature and amount of the work done by him, and shall have such diary initialled at the end of every month by the person under whom he is serving.

8. Before any apprentice shall be admitted as a Vakil he shall produce a certificate showing that he has attended not less than two-thirds of the lectures on professional conduct and advocacy provided for in Rule 20 below, and shall also sign and file with the Registrar answers to the questions contained in Schedule A hereunto annexed, and an affidavit stating the amount and nature of the work done by him during the period of his service, under the following heads, viz:—

The person or persons under whom he has served shall sign and file answers to the questions contained in Schedule B, as also a certificate in the form given therein.

9. In case any apprentice shall show sufficient cause, to the satisfaction of the Court, why the conditions of Rules 2 and 3 cannot be fully complied with, it shall be in the power of the Court to dispense with any part of such conditions as it may think fit.

10. Every pleader who applies to be admitted as a Vakil under the latter part of clause (2) of Rule 1 shall file his application with the Registrar, together with answers to the questions contained in Schedule C, and a certificate in the form given at the foot thereof, also his B.L. diploma, and, if necessary a certificate showing that he has passed the examination in the Law of Practice and Procedure, Civil and Criminal, referred to in the rule.

11. Every candidate for enrolment as a Vakil shall, if required by the Court, attend in person for the purpose of giving further information touching any matter mentioned in the answers, affidavits or certificates filed with the Registrar as hereinbefore provided.

12. Unless the Court otherwise orders, any person intending to apply to be admitted as a Vakil shall give one month's notice in writing to the Registrar stating his intention, and shall also insert in the *Fort St. George Gazette*, a like notice for four successive weeks prior to his application.

If any person, having passed the examination entitling him to be admitted and enrolled as a Pleader, shall fail to apply for such admission and enrolment for a period of one year from the time of passing the examination, he shall not be admitted and enrolled, except by special order of the High Court.

25. If any person, having obtained a certificate, shall fail to renew it for a period of two years, he shall not be entitled to have it renewed, without the orders of the High Court, and shall be required to produce satisfactory testimonials to his character during the interval.

26. If any person shall hold any appointment under Government, or be a student at any school or college, or shall carry on any trade or other business, at the time of his application for admission as a Pleader, he shall state the fact in his application for admission, and the High Court may refuse to admit such person, or pass such orders thereon as it thinks proper. Save on the conditions mentioned hereunder, the High Court will not grant Pleadership certificates to persons holding judicial or other office under Government:—

(1) The applicant must be prepared to resign his appointment *on receipt of his Pleadership certificate.*

(2) The applicant must obtain leave of absence from his official superior with the object of practising as a Pleader. In this case, the certificate is granted only on condition of its being returned for cancellation should the applicant revert to his appointment under Government.

(1) Provided that when a Pleader is appointed by or under the authority of the High Court to the office of District Munsif, whether temporarily or permanently, it shall not be necessary to give the notice prescribed in the first part of this rule; but no Pleader while employed as District Munsif shall be permitted to practise or do any business as a Pleader before any court; and

(2) Provided also that Pleaders may take part in the management of societies registered under the Co-operative Societies Act, II of 1912, in the areas in which they practise; but no pleader, so taking part shall receive any remuneration other than the ordinary profits without the special leave of the High Court.

Suspensions and Dismissals.

28. Subordinate Judges and District Munsifs are required to bring to the notice of the District Judge every case in which a Pleader is guilty of misconduct for which he is liable to be suspended or dismissed under the provisions of the Legal Practitioners Act.

In every case in which a report is received under section 14 of the Legal Practitioners Act or the High Court after perusal of the records considers the proceedings of a Subordinate Court should be revised under section 16 of the Act, the Registrar shall set the case down for hearing by a Bench of three Judges, and shall give reasonable notice to the Pleader, and to the person (if any) on whose complaint proceedings were instituted of the day on which the report or order will be considered, and such Pleader and complainant may appear in person or by counsel or vakil to show cause against or support the report or order.

Clause 2.—We would omit this clause and, subject to what we say below, would leave section 5 of the Act as it stands. We think it would be dangerous to apply section 5 to all applications, for example, applications by a judgment-debtor to set aside a sale in execution of a decree, and applications by a decree-holder for execution of a decree. If section 5 were applicable to all such applications, there would be no finality in the processes of the Courts, and this would lead to a most undesirable result in all cases where title to property is involved. We think, however, that the words "made applicable by any enactment or rule for the time being in force" are, in so far as they refer to rules, vague, inasmuch as there is no definition of the term "rule." The intention no doubt is to refer to a statutory rule or a rule having the force of law, *e.g.*, rules contained in the Schedule to the Code of Civil Procedure, and, in particular, Order 22, Rule 9. We would, therefore, amend section 5 by substituting the words "by or under any enactment" for the words "by any enactment or rule."

Clause 3.—We have carefully considered each section in Parts II and III of the Act for the purpose of deciding whether it should apply to periods of limitation prescribed by special or local laws or not. We think provision should be made that section 4, sections 9 to 18 and section 22 should apply, unless they are expressly excluded by the special or local law, and that the remaining provisions of the Act should not apply. This will, of course, not preclude amendments of special or local laws with a view to the application of such provisions. We have accordingly amended section 29 (2), which clause 3 of the Bill will insert in the Act, and we have re-drafted the opening words of the sub-section with a view to make the intention clearer.

2. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended

The following report of the Select Committee appointed to consider the Legislative Assembly Standing Orders was presented to the Legislative Assembly on the 3rd February, 1922.—

We, the undersigned Members of the Select Committee to which certain draft amendments of the Standing Orders were referred, have the honour to make the following Report:—

We have considered the draft amendments moved in the Assembly by the Honourable Sir William Vincent, Mr. Frank McCarthy, Rao Bahadur T. Rangachariar, Rai Sahib Lakshmi Narain Lal and Sir P. S. Sivaswami Ayyar, and we have also examined numerous other suggestions for amendments emanating from members of the Assembly or Departments of the Government of India in respect of which no formal motions were made in the Assembly. For convenience we deal with the amendments in the order of the Standing Orders to which they relate.

Standing Order 7.—We have accepted the re-draft of this Standing Order proposed by the Honourable Sir William Vincent down to the end of 7 B (1). By a majority we have decided against the amendment suggested in the proposed Standing Order 7 B (2). This sub-order was intended to inaugurate a procedure by which a majority of the Assembly, with the permission of the President, could give priority on a non-official day to a Resolution which had not secured a place in the ballot for that day. We understand that this procedure was suggested as a substitute for the practice under which in the past Government has given time on official days for selected Resolutions of general public interest. Most of us think that this object, namely, of securing the discussion of a Resolution in which members are generally interested, should be capable of attainment under the Standing Orders as they are. If members are generally desirous that a particular Resolution should obtain time for discussion, their object can be secured by concentrating on that Resolution in one ballot. This would probably result in the particular Resolution obtaining an early place in the ballot, and its position could be secured if members earlier on the list would withdraw in its favour. We think that the tendency to co-operate in this manner might be weakened by introducing the priority procedure suggested in the draft Standing Order 7 B (2), and we have, therefore, omitted it. Our Honourable colleague, Sir William Vincent, made it clear to us that Government may not in the future be able to give time for non-official Resolutions.

We considered a suggestion by Sir Sivaswami Ayyar that within five days of any ballot any two members might by agreement interchange their Resolutions on the list. We think that this would be objectionable and impracticable, and that members whose Resolutions had obtained an earlier place on the list than the Resolutions which would by Sir Sivaswami Ayyar's proposal obtain precedence would have a justifiable grievance at this upsetting of the ballot result.

Rai Sahib Lakshmi Narain Lal's proposal to provide in Standing Order 7 (2) that the President, with the consent of the Member of the Government concerned, may take up non-official business without a ballot on Government days was rejected by us. Rule 6 already enables non-official business to be taken on a Government day with the consent of the Government.

Standing Order 8.—We have accepted the proposed addition of sub-order (4) with some re-drafting in consequence of the decision to reject draft Standing Order 7 B (2).

Standing Order 9.—The same decision has necessitated a slight change in this draft amendment which otherwise we accept.

The Schedule.—It is convenient to refer to the Schedule here as the amendments necessitated therein are consequent on the amendments which we propose to Standing Orders 7, 8 and 9. In substance we have accepted the amendments suggested in the Honourable Sir William Vincent's draft, but we have gone a little further in one respect. We think there is no reason why a member, who has two or more Bills to introduce, should be prevented from introducing them on the same day. We would, therefore, enable such a member to take as many numbers in the Ballot lists as he has Bills to introduce, up to the number of three, and at the ballot to name a Bill for each number which he draws. We have re-drafted certain portions of the Schedule to give effect to this proposal.

Standing Order 11.—We have inserted the words "and signed by the member giving notice" after the word "Secretary" as proposed by Mr. Frank McCarthy.

Standing Order 15.—We have adopted the same member's draft amendment to this Standing Order. We do not think that questions should quote from newspapers or should mention the name of a newspaper.

Standing Order 18.—We do not think any amendment is required to this Standing Order, but our attention has been drawn to an Office Memorandum by the Department of Industries on the cost of producing the Official Report of Debates of the Legislative Assembly. We are not here concerned with the whole of that Memorandum, but solely with one item which makes a statement regarding the cost of certain Questions and Answers, to which we desire to draw the serious attention of the Legislative Assembly.

The five longest Answers given to Questions since the beginning of the first Session of the Legislative Assembly have cost the sum of Rs. 2,250; the most expensive of them costing no less than Rs. 900 itself. The five Questions referred to are the following:—

	Approximate cost. RS.
(1) *Question 89, Delhi Session*— Loss by sale of Reverse Councils, 50 pages, mainly in tabular form ..	900
(2) *Question 346, Simla Session*— Enhancement of railway freights, 46 pages, mainly in tabular form ..	700
(3) *Question 360, Simla Session*— Recommendations of the Indian Jails Committee, 28 pages	350
(4) *Question 61, Simla Session*— Purchase of Railway Wagons in America, 23 pages	250
(5) *Question 559, Simla Session*— Indian Forest Service, 21 pages	250

On account of the excessive length and of the most serious burden of labour which the answering of such questions must cast on Departments of Government, and also on account of the large expense incurred in printing them, we are of opinion that measures should be taken to prevent the use of the Question paper of the Assembly for purposes of this kind. We consider that the purposes themselves are legitimate, but that they do not come within the proper function of a Parliamentary Question. We, therefore, think that the President would be justified in applying a strict interpretation of Standing Order 16 to Questions and Answers of this character.

We do not at present attempt to prescribe any procedure to meet the difficulty which might arise by the exclusion of such Questions under the discretion of the President. The House of Commons possesses a method—that of moving for a Return—by which information of a lengthy, intricate or expensive character is supplied, separately, in a White Paper or Blue Book. It is for consideration whether a procedure of this kind should or should not be adopted by the Legislative Assembly. The only opinion which we express here, is that some method of this kind is necessary to obviate such gross excrescences as that which appears as the Appendix to Volume I, Part I of Legislative Assembly Debates.

We do not approve the proposal by Rai Sahib Lakshmi Narain Lal to substitute for Standing Orders 17 to 20 a bare direction that written Answers shall be circulated to members. We think that most, if not all, of the difficulties which arise out of the question procedure could be obviated if members would take the trouble to acquaint themselves with the provisions of the Rules and Standing Orders on the subject, and particularly with rule 7, which enables the President to disallow a Question on the ground that it relates to a matter which is not primarily the concern of the Governor General in Council.

Standing Order 19.—We have made an amendment here which will enable the President to direct, at the request of any member, that the answer to a starred question be given. We would not go to the length of Rao Bahadur T. Rangachariar's proposal to require the member making such request to have written authority from the member who is absent.

Standing Order 23.—We have adopted here the amendment proposed in the Honourable Sir William Vincent's motion. We do not consider that there is any ground whatever for making any of the amendments suggested by Rai Sahib Lakshmi Narain Lal and Sir Sivaswami Ayyar in connexion with the procedure for motions for an adjournment of the House.

Standing Order 25.—The amendments put forward by Mr. Frank McCarthy have in a modified form been adopted by us. We agree that a count should only be taken on demand, and that a second count should not be taken within an hour.

We have considered the series of amendments proposed by Sir Sivaswami Ayyar which he would introduce in the form of new Standing Orders after Standing Order 30. We recognize that Sir Sivaswami Ayyar has devoted considerable care and attention to the matters to which his amendments relate. But we think that they are matters which should be the subject of practice and precedent, and that they should not be introduced into the body of the Standing Orders. We are of opinion that his proposals would introduce a degree of rigidity into the procedure of the Assembly which is undesirable. There is at present a certain amount of elasticity which tends towards smooth working. Therefore, apart from numerous defects of drafting which the proposals contain, we do not think that they should be given effect to. We have, however, taken up in another form one suggestion of his, the object of which is to enable any member to adopt a motion put down in the name of an absent member. We think, however, this should be confined to Resolutions only, and that in every case the member proposing to adopt a Resolution should have written authority from the member who gave notice thereof, and that the President should have discretion even then to refuse permission to move. This alteration we have introduced by an amendment of Standing Order 61 (2).

Standing Order 31.—The draft amendments proposed by the Honourable Sir William Vincent and Mr. Frank McCarthy both invite attention to the fact that this Standing Order is too rigid. We have attempted to examine all the cases in which a motion raising substantially the same question as another motion on which the Assembly has given a decision might not only be permissible, but might also be necessary. We have collected these cases into the proviso which we propose to add to Standing Order 31. We think the proviso exhausts the circumstances in which repetition should be permissible.

Standing Order 32.—We propose an amendment here to make it clear that the mover of an amendment, whether to a Resolution or to a Bill, has no absolute right of reply. We think discretion in the matter should be left in the hands of the President.

Standing Order 33.—We regard as unnecessary and undesirable the additions which Sir Sivaswami Ayyar has proposed to this Standing Order. We do not agree to his amendments to Standing Order 37.

Standing Order 34.—Question has frequently arisen at meetings of the Assembly as to the position of a mover's right of reply when the closure is moved and carried. As the Standing Order is framed at present, we think there is no doubt that, when a motion for a closure is carried, any subsisting rights of reply have gone. We propose, therefore, that the President should have discretion to allow a right of reply after the closure is carried. We have re-drafted sub-order (3) in order to make its intention clearer.

Standing Orders 38, 39 and 40.—Various amendments have been proposed in these Standing Orders with a view to remove the doubts that have existed as to whether a Select Committee must be nominated by the same motion which refers the Bill to the committee. We have adopted the amendments of which notice was given by the Honourable Sir William Vincent to Standing Orders 38 and 40. These provide that, where a reference to a Select Committee is the result of a substantive motion, the committee should be appointed at the time, but where the motion for reference is by way of an amendment to a motion that a Bill be taken into consideration, then the appointment of the committee can be postponed to a subsequent meeting. We agree that as the Standing Order lays down that the Law Member, if a member of the Assembly, and the Member of the Government in charge must be members of the Select Committee, it is unnecessary that their names should be included in the motion.

Standing Orders 54 to 57.—We consider that steps should be taken at some time to make the amendment of the Standing Orders a far more deliberate proceeding than it is at present. It is a matter that should not be taken up light-heartedly. At the same time we are not prepared to put forward proposals at present with this end in view. We have contented ourselves with extending the period of notice required by Standing Order 54 from ten days to one month instead of 20 days suggested by Mr. Frank McCarthy.

Standing Order 59.—The amendment we propose here is intended to enable the President to deal with Resolutions of an omnibus character. We understand that many Resolutions of which notices are now received contain several issues, and the President will be in a position to disallow these, unless he is of opinion that they contain substantially one definite issue.

Standing Order 61.—The amendment made in this Standing Order has already been explained above.

Standing Order 62.—This Standing Order as drafted does not enable the President to extend the time for the speech of a mover of a Resolution or of a Member of the Government though other speeches can be extended with the President's permission beyond the fifteen minutes which the Standing Order allows. We have, therefore, provided for some elasticity in this matter.

Standing Order 72.—Sir Sivaswami Ayyar proposed that the Assembly should be given power to suspend the operation of any of the Standing Orders at any time. We think this would be dangerous. The original Standing Orders have provided in numerous places that the President has discretion to suspend a particular Standing Order, and we have not discovered any case in which the absence of that discretion has been inconvenient, except with regard to Standing Order 72. We have, therefore, proposed an amendment here.

Standing Order 75.—We have adopted the amendment put forward by Mr. Frank McCarthy.

We do not think we need discuss in detail the numerous other amendments put forward. To a large extent the amendments were aimed at introducing a cast-iron procedure without any power of relaxation. We think the business of the Assembly would be seriously hampered if the various periods of notice suggested were laid down and could in no case be departed from. We do not approve of the suggestion that pending notices of Resolutions and Questions should be carried on from Session to Session. This would involve a large amount of fruitless labour and expense in the office of the Assembly. Sir Sivaswami Ayyar's amendments to Standing Orders 37 and 38 would, in our opinion, have the same effect of introducing an undesirable rigidity in the procedure. His amendment to Standing Order 40 goes far beyond the Standing Order of the House of Commons, and would introduce a dangerous latitude in the scope of a Select Committee's duties.

We have introduced a new Standing Order 76 to enable the President to delegate his powers under the Standing Orders to the Deputy President. At present the Deputy President has no powers except when actually presiding at meetings of the Assembly. Circumstances might arise to prevent the President from exercising the numerous functions which devolve on him outside the Chamber, and we consider it desirable that provision should be made for the carrying on of these functions by the Deputy President. We think that there are functions of the President under the Rules (notably his power under Rule 7) which might suitably be delegated to the Deputy President, but we think it would be more suitable if this provision were made by an amendment of the Rules themselves.

We recommend that the amendments made by us be passed by the Assembly.
